## Hart 2014 Trial results now available online

The Hart Trial Results book is now available to download free online, with a limited number of hard copies also available for purchase.

The 98-page publication gives comprehensive crop trial results from the Hart Field-Site for 2014 and was launched at last week's *Getting the Crop In* seminar in Clare.

The results are available to download either in full, or article by article, and includes information about interpreting the trial data.

In 2014, Hart Field-Site Group research and extension manager Sarah Noack led 34 trials across almost 2000 plots.

Trials covered crop varieties including wheat, barley and durum, as well as agronomy, nutrition, weed management and herbicides, disease management and cropping systems and management.

To download the results visit the website [www.hartfieldsite.org.au](http://www.hartfieldsite.org.au) or to purchase a hard copy, please contact [admin@hartfieldsite.org.au](mailto:admin@hartfieldsite.org.au)
