HART FIELD DAY

September 17

Our main Field Day attracts over 600 visitors from all over the South Australia and interstate.

Every half hour a block of eight sessions are run simultaneously with highly regarded specialists speaking at each trial. A comprehensive take-home Field Day Book included in the entry fee.

This is Hart's main event of the year.

Hart AGM

April 9

6pm, Blyth Hotel

Getting The Crop In

March 13

8am – 12:15pm

Industry guest speakers from across the county cover a wide range of topics, all relevant to broadacre cropping.

Winter Walk

July 16

9am – 12pm

An informal guided walk around the trial site; the first opportunity to inspect the site post seeding, with guest speakers presenting their observations on current trials.

They are on hand to answer questions and will also share their knowledge on all the latest cropping systems and agronomic updates.

Spring Twilight Walk

October 15

5pm followed by BBQ

Another informal opportunity to inspect the trial site, this time just prior to harvest, again with industry researchers & representatives presenting in the field.

This event is followed by drinks and a BBQ in the shed - a great opportunity to network.

Acknowledgements

The success of our research program could not be achieved without the contribution of a large number of people and organisations.

Supporters

We thank the numerous growers and consultants who provide various contributions, from knowledge and experience through to land and equipment for conducting trials.

DAP ZinCote 1%

**1% Zinc evenly
applied to every
granule**

Agfert's Premium Cropping Range will consist of a range of products with superior nutrient levels and handling properties to the standard fertiliser range.

**Also Available in MAP
ZinCote 1%**

DAP ZinCote 1% is Agfert Fertilisers first premium compound product to be released as part of its Premium Cropping Range. New technology allows Agfert to get 1% zinc evenly applied to every granule, ensuring even and consistent distribution of Zinc throughout the furrow. The Zinc used in DAP ZinCote 1% is in a controlled release form supplying zinc to the plant gradually throughout the growing season.

Contact Derryn Stringer on (08) 8862 1866
for more information & to work out your fertiliser requirements.
