# Looking out for the signs of suicide

www.cnorthhealth.com.au

#### Statistics

- Suicide remains the leading cause of death for Australians aged between 15 and 44
- \* In 2012, there were 2,535 deaths by suicide, according to the Australian Bureau of Statistics Causes of Death
- \* This equates to almost seven deaths by suicide in Australia each day
- \* From this data (ABS, Causes of Death, 2012) it shows that almost twice as many people died from suicide in Australia, than in road related transport deaths
- \* Men account for 3 out of 5 deaths by suicide
- \* For every completed suicide, it is estimated that as many as 30 people attempt.

#### Risk factors

- Financial or legal problems
- \* Relationship break-ups
- \* Family problems
- \* Sexual, physical or emotional abuse
- \* Drug or alcohol problems
- \* Mental illness, including schizophrenia, bipolar disorder and depression
- Major loss and grief resulting from a death or the suicide of a friend, family member or public figure
- \* School, uni or work problems
- \* Unemployment or being unemployed for a very long time
- \* Feeling like they don't belong anywhere
- \* Any problem that they can't see a solution for
- \* ANYTHING depending on how the person feels about it.

## Warning signs

- \* No sense of purpose/reason for living
- \* Noticeable behaviour changes
- \* Being moody, withdrawn or sad
- \* Hopelessness/worthlessness
- \* Threats/talk of suicide or death
- \* Engaging in self-destructive or risky behaviour
- \* Withdrawal from other people
- Increased use of alcohol/drugs
- \* Giving away possessions and putting affairs in order
- \* IF IN DOUBT, CHECK IT OUT

## 3 key actions to helping a suicidal person

- 1. If you think someone may be suicidal, ask them.
- 2. If they say yes, do not leave them alone.
- 3. Link them with professional help.
