

Been farming long?

We're inviting **early careers farmers** (with 0-8 year's experience) interested in **learning new skills** or **refreshing their knowledge** to register for this **4 part workshop series** (*part 4 to be determined by participants*).

Each workshop will be a mix of **lecture style sessions** in the Hart shed and **practical work** in the field, plus a **road trip!**

'In-season weed ID & control' Weed identification, chemical groups and how herbicides work, putting theory into practice in herbicide field trials. **July 4, 2017** 8:30am – 12 noon
Presented at Hart by Pete Baker, Fenceline Consulting

'Soil fertility & crop nutrition' Focusing on nitrogen & phosphorus, how to do a crop nutrient audit, how much to apply, what source and when, interpreting soil tests, field look at nutrient test strips & sensors. **July 25, 2017** 8:30am – 12 noon
Presented at Hart by Dr Sean Mason, Agronomy Solutions

'ROAD TRIP - sustainable farming in practice'
Managing different soil types & environments, minimal disturbance & full stubble retention, soil modification techniques. **Early Sept, 2017**
8:30am – 4:30pm
Visit 3 Mid-North farms

Cost: \$150 all inclusive (places are limited)

Register now: Sandy Kimber | 0427 423 154 | admin@hartfieldsite.org.au

**Registrations close
June 27**
