

Reducing Limitations to Pulse Production

Thursday 22 August 2019

Agenda

Location 1 - Willowie: Session begins at 10am, concludes at 11.35pm

Directions: corner of Carey Road/Terka Road intersection

Focus: Low Rainfall Break Crops

Overview of a low rainfall break crop project that aims to improve productivity and profit of low rainfall farming systems through the development of break crop management specific to this environment. Field plot machinery demonstration included.

Location 2 - Wirrabara: Session begins at 12.30pm, concludes at 1.30pm

Directions: corner of Willow Dam Road and Heysen Trail, Wongyarra

Focus: Lime

Review of nitrogen fixation and acid tolerant rhizobia in acidic soils.

Location 3 - Bute: Session begins at 3.15pm, concludes at 4.15pm

Directions: at the end of Commons Road, Bute

Focus: Weed Ecology

Overview of weed management in high break crop intensity farming systems.

For those who wish to attend all three sessions, a free bus will depart at 8am from the Clare Town Oval, Main North Road Clare, and will return by 5.45pm. Lunch will be provided, seats are limited and RSVP prior to the event for the bus is essential.

If you have questions or would like to register your interest in attending, please contact Sandy Kimber on 0427 423 154 or visit <http://www.hartfieldsite.org.au/pages/events/other-events.php>
