

Been farming long?

National
Landcare
Program

Two new workshop series offered in 2019

We're inviting **early careers farmers** (with 0-8 year's experience) interested in **learning new skills** or **refreshing their knowledge** to register their interest for a new **workshop series** to be run in 2019

Each workshop will be a mix of **lecture style** sessions in the Hart shed and **practical work** in the field, plus we'll take you on a **road trip**

New participants will be offered **8 modules in 2019**; (in-season weed ID & control, soil fertility & crop nutrition, insect ID, 'sustainable farming in practice' road trip) + 4 new modules

Participants from the 2017 workshop series will be offered 4 new modules

Register your interest now (obligation free):
