

HANDS-ON **PRECISION AG** TRAINING

getting the most out of Precision Agriculture tools on your farm

an interactive workshop facilitated by Adrian Roles; AgTrak

February 18, 2021 | 9am – 3pm | Balaklava Golf Club

Workshop topics:

- Is PA right for you;
reviewing the fundamentals of PA
- *Identifying, quantifying and managing variable production constraints*
- Producer case studies (benefits & lessons learnt)
- *Tips and tricks for data management*
- Hands-on field exercise and simulation

This free workshop is best suited to farmers in the early stages of their PA journey, but all are welcome.

A follow-up workshop will be held later in the year; timing & topics based on feedback from participants.

Morning tea & lunch provided.

Registrations by February 15 are essential:
