

Precision Agriculture Crop Walk

Meeting details

DATE: Wednesday, 1st September 2010

LOCATION: Kenton Angel's sheds (see attached map)

TIME: 8.30am – 11.30am

COST: Free

Come and see how variable rate PA trials we've set up are performing in your local area. Trials are assessing variable rates of phosphorus and nitrogen on different soil types, and demonstrate how PA can work for you

There will also be an opportunity to hear from local growers adopting PA, and hear of their experiences, what equipment they have used and how they decided on their zones. This includes visits to Kenton Angel and Rob Wandel of Kybunga.

The latest in crop sensing will also be discussed

Come and view;

- **PA systems in Practice**
- **Local trials in your area**
- **Latest updates on PA equipment use and interpretations**

SPAA invites you to join with membership starting \$66 allowing you to participate in all 3 workshops planned for 2010/11

RSVP to Sam Trengove, 0428262057
