

Here are some handy follow-up resources for those that attended our July 2023 event.

Even if you weren't there, you might still get some value from it so feel free to have a look.

SESSION 1

CHALLENGING NITROGEN DECISIONS – UNDERSTANDING THE RISK TO MAXIMISE RETURNS

Rebekah Allen; Hart, Barry Mudge; Barry Mudge Consulting and Peter Hayman; SARDI

RISK SURVEY

Remember how Bek showed a survey QR code at the start of this session? It was to help her start gathering some baseline data on which risky type decision making you found easy or hard, where or who you gather information from when making those decisions, and whether you look back over your decision to see if you could make improvements next time...

Some of you were unable to complete your responses due to service issues, so here's the link if you would like to have another go, in fact we'd really appreciate it if you did! https://bit.ly/riskwise_base (Workshop ID is: 1807HART)

Even if you weren't at the event, the data gathered will help drive the direction and focus of this RiskWi\$e project over the next 5 years so please use the link above and take 5 mins and share your thoughts.

A big thank you to everyone who has already completed one, we're very grateful!

If you'd like to see some of the survey results so far, [click here](#).

HART BEAT

Our HART BEAT (yield prediction) newsletter was also featured during this session. You'll find it here: [HART BEAT 65](#)

THE FARMING CHALLENGE – DECISION MAKING IN THE FACE OF UNCERTAINTY

Barry Mudge's presentation

A big thank you to Barry for agreeing to share this with you all. You can download it [here](#).

FAST GRAPHS FOR SLOW THINKING

Peter Hayman's spreadsheet

If you would like access to this one, please contact Bek: rebekah@hartfieldsite.org.au

SESSION 2

CROP SAFETY & WEED MANAGEMENT IN LENTILS

Navneet Aggarwal; SARDI & Jordan Bruce; Trengove Consulting

As referred to by Nav during his session, here's a link to a GRDC article: [Broadleaf weed control and crop safety in lentils](#), authored by Jordan, Navneet and others.

SESSION 3

REDUCING RELIANCE ON GLYPHOSATE

Craig Prior; Elders & Rebekah Allen; Hart

During this session, Bek referred to a 2020 National Herbicide Resistance Survey on ryegrass across the Yorke Peninsula, Mid North and Lower North. You can read that summary [here](#).
