

Hart Field-Site Group Inc

Research Assistant (Field Trials)

INFORMATION SHEET

Are you passionate about broadacre agricultural research?

The Hart Field-Site Group Inc (Hart) is seeking to employ a motivated individual to support field trials across Hart's research and extension program in the Mid North of South Australia.

We are a not-for-profit grower group with a proud 43-year history, conducting a large number of field trials in applied grains research & other broadacre cropping projects (annually) on a 40 hectare site owned by us.

Our core aim is to enhance the knowledge and skills of farmers by providing independent information to assist them in the adoption of sustainable, productive and profitable cropping practices and technologies.

The Research Assistant will report directly to Hart's Research & Extension Manager and work closely within our team to achieve successful trial and research outcomes.

With exposure to many aspects of our research and extension program, this role will suit applicants who have an eye for detail, enjoy variety and thrive on the challenge of meeting specific goals.

Effective communication skills, both written and verbal, and a high level of personal organisation will be most important.

Within our small team, you'll find us to be passionate and driven across all aspects of agricultural research and extension. We have a friendly and positive work environment, working together to deliver successful outcomes to benefit the broader agricultural industry.

The Hart team also work collaboratively with farmers, external researchers, contractors, the broader ag industry and other key stakeholders which provides all staff with the opportunity to expand their networks.

Experience / Qualifications

On the job training will be provided

- A basic understanding of, and genuine interest in, broadacre farming systems
- Experience in agriculture and / or ag research will be beneficial
- General proficiency in the use of laptop and mobile device software and applications
- Experience in report writing will be viewed favourably but is not essential

**Tertiary qualifications are not essential*

Applicants must have

- A current Australian driver's license
- The right to work in Australia
- ChemCert certificate (or be willing to get one)

Start date

- The successful applicant will commence employment with Hart as soon as they are able to start.

Terms

- This is a short-term, casual position from July 2025 - January / February 2026
- Hours may vary as the season progresses - we estimate 20-30 hours / week
- Work days and times may be negotiable

Salary

We pay above award rates

(Pastoral Award – level dependent on the experience of the successful candidate)

How to apply

- Familiarise yourself with the full contents of this Information Sheet & Roles and Duties document.
- Apply via email, providing us with the following:
 1. Your current CV including the names of 3 referees (2 x work-related + 1 x personal).
 2. A cover letter (1 page max) highlighting your most relevant experience and interest in ag research. Please also tell us a bit more about yourself and why you've applied. Finally, don't forget to address the points listed in the 'Applicants must have' section above if it's not already included in your CV.

Send to

Sandy Kimber | Executive Officer | Hart Field-Site Group | admin@hartfieldsite.org.au
