RiskWi\$e – a GRDC project

As part of the national [RiskWi\\$e](#) project, the SA Central ARG (Action Research Group) have produced a 5-part podcast series to help Aussie grain growers get it more right, more often when it comes to navigating on-farm risk and reward and making decisions.

We encourage you to share this content with your networks using the information below.

Navigating on-farm risk & reward: getting it more right, more often EPISODE 1 – On-farm risk & reward: understanding the basics

NEWSLETTER CONTENT

 Getting Back to the Basics of On-Farm Risk & Reward

Episode 1 of 'Navigating on-farm risk & Reward: getting it more right, more often' is here!

Kickstarting this exciting new podcast series, host Annabelle Homer chats with Port Germein farmer and consultant Barry Mudge.

Barry's practical experience in managing risk in low rainfall farming systems has made him a leading voice in understanding uncertainty and variability.

In this episode, Barry shares strategies for robust decision-making, avoiding clangers, and challenging the tricks our minds can play—all with one goal: to help farmers make smarter, more confident choices.

"Our aim is for listeners to use this conversation with Barry to start one of their own—whether it's with someone within their business or perhaps an advisor," says co-host Sandy Kimber.

"These discussions are key to helping farmers challenge their perspectives and improve decision-making outcomes."

 Listen to Episode 1 now on [Spotify](#) and [Apple](#) Podcasts, and be sure to follow the series for expert insights in future episodes.
